

Dear

To whom it may concern

I would like to take this opportunity to thank Silulo Ulutho Technologies for opening this opportunity for us to study computer course as they have brought it to the merging community like Mbekweni (Paarl) without Silulo we would not have companies which offered this computer course and supports staff development

Inyosi Enterprise Development who has a neck to support small business by organizing bursaries for them and contribute to the development of the communities that are less fortunate, they also support the BEE and young entrepreneurs such as Mr Khangelani Mfana who is a franchise owner of Silulo Paarl. Inyosi does not only support these small businesses but also organize loans for business.

Liberty Liquor who are the contributors in the economy of the country and looks to see that people from marginalized communities do get an opportunity to acquire skills

As one of this year's recipients I'm grateful for the opportunity this funding will grant me. Doing computer classes and advancing my administrative experience has always been one of my dreams.

I wouldn't miss this chance in showing you that I am worthy of the chance you have granted me.

Once again thank you for supporting the youth's vision and dreams. Your generosity truly makes a difference.

Sincerely

Lusanda Dyonta
